Dr Hans-Joachim Freuß  
Dr Jürgen Wilhelm

Dear Shri R. K. Jain,

In continuation to our communication dated 12<sup>th</sup> September, 2011 with the Ministry of Environment and Forest and subsequent discussions of Mr. A C Karera with Dr. Bischoff, regarding Indo-German technical cooperation for environmentally safe disposal of the Hazardous Waste from Union Carbide site at Bhopal in the incineration facility at Hamburg, Germany, GIZ IS would do the following steps:

- **Assessment of the physical and chemical properties of the waste**
- **Identification of UN certified packaging according to the waste classification**
- **Purchase and transport of container to Bhopal (site of waste)**
- **Packaging of waste according to UN rules and air freight regulations**
- **Handling and transportation from the site to the airport**
- **Transport by chartered airplanes from Bhopal to Hamburg, Germany**

- Transport and handover from Hamburg airport to the incineration facility
- Handover of all the certificates to Pollution Control Board

GIZ International Services is finalising the financial offer for the above proposal. As you are aware, the air fare for the transportation of the waste is the major component in the total project cost. Air fares are highly fluctuating during the year and depend on the date and month of the year. We are able to calculate the binding final cost estimate as soon as the approximate date for the air lifting is known. However based on our internal calculation and research an estimate for your consideration will be approximately EUR 1.5 million (INR 9 Crore 75 lac based on current price @ INR 65 per Euro).

We have by now finalised the preparation process for the project and have necessary permissions from the Federal Government of Germany for the safe disposal of Hazardous waste at the incineration facility available at Hamburg, Germany. Local permissions and formalities for airlifting the filled containers from site via Bhopal airport shall be facilitated by your department.

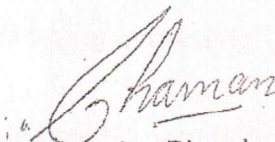

We look forward to your approval along with final dates to Airlift the Hazardous waste from Bhopal.

With best wishes and warm regards

Yours sincerely,

**Hans-Hermann Dube**
